QUALITY RETAIL APPAREL ECO STOCK

Made from Organic Cotton

Cotton is the most popular fabric used throughout the industry. Historically the process of processing cotton and turning it into fabric has involved using chemicals and different types of pesticides. With the focus shifting to a more sustainable future, new ways of processing cotton fabric have been developed – Organic Cotton. The new process eliminates dangerous chemicals and pesticides, and the certified process ensures better and healthier conditions for those processing the crops.

HEADWEAR PROFESSIONALS

“The ever decreasing resources of the planet have become an issue of increasing awareness, and recycling is one of the foremost ways to help this problem.”

One of the ways to reduce waste is to utilise the non-biodegradable polymer components of plastic bottles and make them into polyester fabrics. Our 'Eco Cap' is made from 100 percent recycled plastic PET bottles providing customers with a lightweight, comfortable and colourfast product, while also contributing to a healthier environment.

CONCEAL GREEN

Effective realism and versatility combine to supply outdoor enthusiasts with a coveted multidimensional pattern that can be utilized in almost any season.

These bark-based patterns have been proven to be dominant wherever green is visible due to their lifelike mixture of small branches, carefully selected tones and detailed contrast. These universal woodland patterns have been meticulously designed and trademarked for the photo realism and outdoor look for every outdoor activity.
